# **INDEPENDENT ACCOUNTANTS' REVIEW REPORT**

English Translation of a Report Originally Issued in Korean on August 16, 2022

To the Shareholders and the Board of Directors of BNK Financial Group Inc.:

#### **Report on the Condensed Interim Consolidated Financial Statements**

We have reviewed the accompanying condensed interim consolidated financial statements of BNK Financial Group Inc. and its subsidiaries (the "Group"). The condensed interim consolidated financial statements consist of the condensed interim consolidated statement of financial position as of June 30, 2022, the condensed interim consolidated statements of comprehensive income for the three-month and six-month periods ended June 30, 2022 and 2021, and the condensed interim consolidated statements of cash flows for the six-month periods ended June 30, 2022 and 2021, all expressed in Korean won, and a summary of significant accounting policies and other explanatory information.

#### Management's Responsibility for the Condensed Interim Consolidated Financial Statements

The Group's management is responsible for the preparation and fair presentation of the accompanying condensed interim consolidated financial statements in accordance with Korean International Financial Reporting Standard ("K-IFRS") 1034, *Interim Financial Reporting*, and for such internal control as management determines is necessary to enable the preparation of condensed interim consolidated financial statements that are free from material misstatement, whether due to fraud or error.

#### Independent Accountants' Responsibility

Our responsibility is to express a conclusion on the accompanying condensed interim consolidated financial statements based on our reviews.

We conducted our reviews in accordance with standards for review of interim financial statements in the Republic of Korea. A review is limited primarily to inquiries of company personnel and analytical procedures applied to financial data and this provides less assurance than an audit. We have not performed an audit and, accordingly, we do not express an audit opinion.

Deloitte refers to one or more of Deloitte Touche Tohmatsu Limited ("DTTL"), its global network of member firms, and their related entities (collectively, the "Deloitte organization"). DTTL (also referred to as "Deloitte Global") and each of its member firms and related entities are legally separate and independent entities, which cannot obligate or bind each other in respect of third parties. DTTL and each DTTL member firm and related entity is liable only for its own acts and omissions, and not those of each other. DTTL does not provide services to clients. Please see http://www.deloitte.com/about to learn more.

#### **Review Conclusion**

Based on our reviews, nothing has come to our attention that causes us to believe that the accompanying condensed interim consolidated financial statements of the Group are not presented fairly, in all material respects, in accordance with K-IFRS 1034, *Interim Financial Reporting*.

#### Other

We have audited the consolidated statement of financial position of the Group as of December 31, 2021, and the related consolidated statements of comprehensive income, changes in equity and cash flows for the year then ended in accordance with Korean Standards on Auditing. We expressed an unqualified opinion in our independent auditors' report dated March 16, 2022. The accompanying consolidated statement of financial position as of December 31, 2021, presented for comparative purposes, is not different, in all material respects, from the above audited consolidated statement of financial position.

## 1.1 BNK Financial Group

BNK Financial Group was incorporated on March 15, 2011, in accordance with the provisions of the Financial Holding Company Act, whereby holders of the ordinary shares of Busan Bank Co., Ltd.; BNK Securities Co., Ltd.; BNK Capital Co., Ltd.; and BNK Credit Information Co., Ltd. transferred all of their shares to the Parent Company and in return received shares of the Parent Company's ordinary share in order to control, manage and provide financial support to subsidiaries engaged in financial business or financial industry-related subsidiaries. Meanwhile, BNK Financial Group established BNK Information System Co., Ltd. and BNK Savings Bank Co., Ltd. as its subsidiaries with 100% investment in 2011. The Parent Company obtained control of Kyongnam Bank Co., Ltd. by acquiring 56.97% of its shares in October 2014 and ultimately acquired 100% of shares of Kyongnam Bank Co., Ltd. through comprehensive exchange of shares on June 4, 2015. In July 2015, the Parent Company also obtained 51.01% of shares in BNK Asset Management Co., Ltd. and established it as its subsidiary through paid-in capital increase and acquisition of ownership. In December 2017, the Parent Company took over the rest of BNK Asset Management Co., Ltd.'s shares; accordingly, it became a wholly owned subsidiary. In November 2019, the Parent Company also obtained 100% of shares in BNK Venture Capital Co., Ltd. and established it as a wholly owned subsidiary. The headquarters of BNK Financial Group is located at Busan Nam-gu Munhyeongeumyu-ro, 30. Meanwhile, the Parent Company's share capital as of June 30, 2022, amounts to #1,629,676 million with 325,935,246 outstanding shares.

#### 1.5 Changes in Scope for Consolidation

None of the major subsidiaries are newly included in the condensed interim consolidated financial statements for the six-month period ended June 30, 2022. However, they exclude subsidiaries that do not perform business activities, such as trusts, beneficiary certificates, securitization companies, unions and private equity investment companies.

Subsidiary newly included in the consolidation for the year ended December 31, 2021:

#### Subsidiary

#### Purpose

BNK Capital Lao NDTMFI Co., Ltd. New investment

However, it excludes subsidiaries that do not perform business activities, such as trusts, beneficiary certificates, securitization companies, unions and private equity investment companies.

#### 2. SIGNIFICANT ACCOUNTING POLICIES:

The principal accounting policies applied in the preparation of these condensed interim consolidated financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

#### 2.1 Basis of Preparation

The Group maintains its accounting records in Korean won and prepares statutory financial statements in the Korean language (Hangul) in accordance with K-IFRSs. The accompanying condensed interim consolidated financial statements have been condensed, restructured and translated into English from the Korean language financial statements.

The Group's condensed interim consolidated financial statements as of and for the six-month periods ended June 30, 2022 and 2021, have been prepared in accordance with K-IFRS 1034, *Interim Financial Reporting*. It is necessary to use the Group's annual consolidated financial statements as of and for the year ended December 31, 2021, for understanding the accompanying condensed interim consolidated financial statements.

Significant accounting policies used in the preparation of the condensed interim consolidated financial statements are consistent with those of the consolidated financial statements for the year ended December 31, 2021, except for the impact due to the application of amendment and enactments of standards described below.

(a) New and amended standards and interpretations adopted by the Group and the changes in the accounting policies are as follows:

#### - K-IFRS 1103, Business Combination - Reference to the Conceptual Framework (Amendment)

The amendment updates K-IFRS 1103 so that it refers to the Conceptual Framework (2018) instead of the Framework (2007). It also adds to K-IFRS 1103 a requirement that, for obligations within the scope of K-IFRS 1037, an acquirer applies K-IFRS 1037 to determine whether at the acquisition date a present obligation exists as a result of past events. For a levy that would be within the scope of K-IFRS 2121, *Levies*, the acquirer applies K-IFRS 2121 to determine whether the obligating event that gives rise to a liability to pay the levy has occurred by the acquisition date.

Finally, the amendment adds an explicit statement that an acquirer does not recognize contingent assets acquired in a business combination.

The amendment is effective for business combinations for which the date of acquisition is on or after the beginning of the first annual period beginning on or after January 1, 2022. The Group expects that the amendment will not have a significant impact on the condensed interim consolidated financial statements.

#### - K-IFRS 1016, Property, Plant and Equipment (Amendment)

The amendment prohibits deducting from the cost of an item of property, plant and equipment any proceeds from selling items produced before that asset is available for use, i.e., proceeds while bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Consequently, an entity recognizes such sales proceeds and related costs in profit or loss. The entity measures the cost of those items in accordance with K-IFRS 1002, *Inventories*.

The amendment also clarifies the meaning of 'testing whether an asset is functioning properly.' K-IFRS 1016 now specifies this as assessing whether the technical and physical performance of the asset is such that it is capable of being used in the production or supply of goods or services, for rental to others or for administrative purposes.

If not presented separately in the consolidated statements of comprehensive income, the consolidated financial statements shall disclose the amounts of proceeds and cost included in profit or loss that relate to items produced that are not an output of the entity's ordinary activities, and which line item(s) in the consolidated statements of comprehensive income include(s) such proceeds and cost.

The amendment is applied retrospectively, but only to items of property, plant and equipment that are brought to the location and condition necessary for them to be capable of operating in the manner intended by management on or after the beginning of the earliest period presented in the consolidated financial statements in which the entity first applies the amendment.

The entity shall recognize the cumulative effect of initially applying the amendment as an adjustment to the opening balance of retained earnings (or other components of equity, as appropriate) at the beginning of that earliest period presented. The Group expects that the amendment will not have a significant impact on the condensed interim consolidated financial statements.

- K-IFRS 1037, Onerous Contracts-Cost of Fulfilling a Contract (Amendment)

The amendment specifies that the 'cost of fulfilling' a contract comprises the 'costs that relate directly to the contract.'

Costs that relate directly to a contract consist of both the incremental costs of fulfilling that contract (an example would be direct labor or materials) and an allocation of other costs that relate directly to fulfilling contracts (an example would be the allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract).

The amendment applies to contracts for which the entity has not yet fulfilled all its obligations at the beginning of the annual reporting period in which the entity first applies the amendment. Comparatives are not restated. Instead, the entity shall recognize the cumulative effect of initially applying the amendment as an adjustment to the opening balance of retained earnings or other components of equity, as appropriate, at the date of initial application.

The Group expects that the amendment will not have a significant impact on the condensed interim consolidated financial statements.

- Annual Improvements to K-IFRSs 2018-2020

The annual improvements include amendment to two standards, such as K-IFRS 1109, *Financial Instruments*, and K-IFRS 1116, *Leases*.

#### (i) K-IFRS 1109, Financial Instruments

The amendment clarifies that in applying the '10 per cent' test to assess whether to derecognize a financial liability, an entity includes only fees paid or received between the entity (the borrower) and the lender, including fees paid or received by either the entity or the lender on the other's behalf. The amendment is applied prospectively to modifications and exchanges that occur on or after the date the entity first applies the amendment.

#### (ii) K-IFRS 1116, Leases

The amendment removes the illustration of the reimbursement of leasehold improvements. The Group expects that the amendment will not have a significant impact on the condensed interim consolidated financial statements.

(b) The K-IFRSs that have been published are not mandatory for June 30, 2022, reporting periods and have not been early adopted by the Group.

- K-IFRS 1001, Classification of Liabilities as Current or Non-Current, and IFRS Practice Statement 2, 'Making Materiality Judgements' (Amendments) - Disclosure of Accounting Policies

These amendments change the requirements of K-IFRS 1001 for disclosure of accounting policies and replace all terms of 'significant accounting policies' with 'Material accounting policy information.'

Paragraphs related to K-IFRS 1001 are also amended to clarify that accounting policy information that relates to immaterial transactions, other events or conditions is immaterial and need not be disclosed. Accounting policy information may nevertheless be material because of the nature of the related transactions, other events or conditions, even if the amounts are immaterial. However, not all accounting policy information relating to material transactions, other events or conditions is itself material.

Guidance and examples have also been developed to describe and apply the application of the 'Four Steps of the Criticality Process' described in IFRS 2.

These amendments will be applied prospectively for the fiscal year beginning on or after January 1, 2023, and early application is permitted. Amendments to IFRS 2 do not include effective dates or transitional provisions.

- K-IFRS 1008, *Accounting Policies, Changes in Accounting Estimates and Errors* - Definition of Accounting Estimates

This amendment replaces the definition of change in accounting estimates with the definition of accounting estimates. Under the new definition, the accounting estimate is "the amount of money in the financial statements affected by measurement uncertainty."

The amendment should be applied for annual periods beginning on or after January 1, 2023, and earlier application is permitted.

- K-IFRS 1012, Income Taxes - Deferred Tax Related to Assets and Liabilities Arising from a Single Transaction

This amendment reduces the scope of application of the initial recognition exception. According to the amendment, the exception to initial recognition does not apply to transaction in which the equal taxable temporary difference and deductible temporary difference give rise.

Under applicable tax laws, a transaction that is not a business combination and that does not affect accounting profit or taxable profit may result in equal taxable temporary difference and deductible temporary difference when recognizing assets and liabilities. For instance, this situation may arise when a lease liability and a corresponding right-of-use asset are recognized by applying K-IFRS 1116 at the commencement date of the lease.

In accordance with K-IFRS 1012 amendment, the Group should recognize related deferred tax assets and deferred tax liabilities. Recognition of deferred tax assets is subject to the recoverability requirements of K-IFRS 1012.

The amendment is effective for annual reporting periods beginning on or after January 1, 2023, with earlier application permitted.

#### 2.2 Significant Accounting Policies

Significant accounting policies and method of computation used in the preparation of the condensed interim consolidated financial statements are consistent with those of the consolidated financial statements as of and for the year ended December 31, 2021, except for the changes due to the application of amendment and enactments of standards described in Note 2.1.(a) and the one described below.

#### 2.2.1 Income Tax Expense

Income tax expense for the interim period is recognized based on management's best estimate of the weighted-average annual income tax rate expected for the full financial year. The estimated average annual tax rate is applied to the pre-tax income.

#### 2.2.2 Reform of Interest Rate Index

In relation to the reform of interest rate index, the amendments provide exceptions, including adjusting effective interest rate instead of book amounts when interest rate index of financial instruments at amortized costs is replaced, and applying hedge accounting without discontinuance, although the interest rate index is replaced in hedging relationship.

As of June 30, 2022, the conversion to a replaced interest rate benchmark has been completed for currencies other than USD, and the ISDA protocol was adopted for derivatives.

The financial instruments that have not been converted to replaced interest rate benchmark among the London InterBank Offered Rate ("LIBOR") interest rates as of June 30, 2022, are as follows:

Non-derivative financial instruments are in book value, while the derivatives and commitments and guarantee contracts are in nominal amount.

(In millions of Korean won)	USD(1)
Non-derivative financial assets	
Financial instruments at amortized costs	495,967
Non-derivative financial liabilities	
Financial liabilities at amortized costs	145,451
Derivatives	
Interest rate related (Hedge)	323,225
Guarantees and loan commitments	217

 $^1$  USD LIBOR (overnight, 1M  $\cdot$  3M  $\cdot$  6M  $\cdot$  12M) that are the maturity before the end of June 2023 are excluded.

#### 3. CRITICAL ACCOUNTING ESTIMATES AND ASSUMPTIONS:

The preparation of condensed interim consolidated financial statements requires the management to make estimates and assumptions concerning the amount recognized in the condensed interim consolidated financial statements (except for estimates) and an executive requires judgement about book amount of assets and liabilities that are not identified easily from other sources. Estimates and assumptions are based on historical experience and other factors. In addition, actual results can differ from those estimates based on such definitions.

Significant accounting estimates and assumptions applied in the preparation of these condensed interim consolidated financial statements are the same as those applied to the consolidated financial statements as of and for the year ended December 31, 2021, except for the following:

#### 3.1 Uncertainty due to the pandemic of Coronavirus Infectious Disease 19 ("COVID-19")

The rapid spread of COVID-19 is having a negative impact on finance, foreign exchange markets and the real economy around the world, which may increase the overall volatility of macroeconomic indicators, such as stock prices, interest rates and exchange rates. COVID-19 could potentially affect the Group's expected credit losses for certain portfolios and a decline in the fair value of financial instruments.

The Group cannot predict the size and duration of future COVID-19 damage, and due to uncertainties arising from COVID-19, important accounting estimates and assumptions used in the preparation of financial statements may change. The Group is continuously monitoring the impact of COVID-19 through the key market indicators, delinquency rates and liquidity ratios.

Matters related to the fair value of financial instruments are described in Note 6. Exposures by major industry as of June 30, 2022, affected by the future changes of significant accounting estimates and assumptions due to COVID-19, are as follows:

Meanwhile, despite the economic contraction caused by COVID-19, the Group's actual default rate has been stable due to various government support policies.

In order to reflect the potential default risk, some of the borrowers from industries that are highly influenced by COVID-19 and borrowers who deferred payment of interest and repayment in installments were classified as borrowers with a significant increase in credit risk, and additional credit loss allowance was recognized. The exposure and credit loss allowance of those borrowers are as follows:

#### 4. FINANCIAL RISK MANAGEMENT:

#### 4.1 General

#### (a) General risk management policy

The Group is exposed to various financial risks, such as credit, liquidity, market and operational, associated with financial instruments. There has not been a significant change in the Group's purpose of financial risk management and risk management policy since December 31, 2021.

#### (b) Credit risk

#### i) Maximum exposure to credit risk

The maximum exposure of the Group's financial instruments, except for equity securities, to credit risk that does not consider value of collateral as of June 30, 2022, and December 31, 2021, is as follows:

#### 6.2 Fair Value Assessment Method and Assumptions

Fair value assessment method and assumptions for each type of financial instruments are as follows:

Classification	Fair value measurement technique
Cash and due from banks	The carrying amounts of cash are assumed, and demand due from banks and payment due from banks are reasonable approximation of fair values. These financial instruments do not have a fixed maturity and are receivable on demand. Fair value of ordinary due from banks is measured using Discounted Cash Flow ("DCF") Model. However, if the contractual maturity and the interest resetting period from the settlement date are within three months, the carrying amounts are assumed to be the fair value.
Securities	The fair value of financial instruments that are quoted in active markets is determined using the quoted prices. Fair value is determined by independent third-party pricing services when quoted prices are not available. Pricing services use one or more of the valuation techniques, including DCF Model, Imputed Market Value Model, Free Cash Flow to Equity Model, Dividend Discount Model, Risk-Adjusted Discount Rate Method and Net Asset Value Method.
Derivatives	For exchange-traded derivative, a quoted price in active market is used to determine fair value, and for over-the-counter ("OTC") derivative, fair value is determined using valuation techniques. The consolidated entity uses internally developed valuation models that are widely used by market participants to determine fair value of plain OTC derivatives, including options, interest rate swap and currency swap, based on observable market parameters. However, some complex financial instruments are valued using advanced internal valuation model or the results of independent pricing services, where part or all of the inputs are not observable in the market. OTC derivatives with closed-form solution in their valuation are valued using appropriate model. Complex derivative instruments where their valuation method cannot be defined by closed-form solution are valued using techniques, including Finite Difference Method and Monte Carlo Simulation.
Loans and receivables	DCF is used to determine the fair value of loans and receivables. When DCF Model is applied, the expected cash flow is calculated by applying the early redemption risk rate to the contractual cash flow calculated according to the contract terms and discounted at appropriate discount rate to calculate fair value. For those loans and receivables with residual maturities of less than three months as of the closing date and the ones with reset period of less than three months, the carrying amount is regarded as fair value.
Deposit liabilities	The carrying amount of demand deposit is regarded as fair value as it does not have maturity and the amount approximates the fair value. Fair value of time deposit is determined using DCF. Fair value is determined using appropriate discount rate and the expected cash flows by contractual cash flows with prepayment rate taken into account. For those deposits with the residual maturities of less than three months as of the closing date and the ones with a reset period of less than three months, the carrying amount is regarded as fair value.
Borrowings	Fair value is determined using DCF, discounting contractual future cash flows by appropriate discount rate. However, for those borrowings with the residual maturities of less than three months as of the closing date and the ones with a reset period of less than three months, the carrying amount is regarded as fair value.
Debentures	Fair value is determined by using the valuation of independent third-party pricing services in accordance with the market prices that are quoted in active markets.
Other financial liabilities	Other financial liabilities mainly consist of financial liabilities with the residual maturities of less than three months as of the closing date and the carrying amount of those is regarded as fair value.

<sup>1</sup> Fair value changes of securities are calculated by increasing or decreasing growth rate (0%-1%) and discount rate (-1%-1%) or liquidation value (-1%-1%) and discount rate (-1%-1%). The growth rate, discount rate and liquidation value are major unobservable inputs.

<sup>2</sup> Fair value changes in privately placed convertible bonds are calculated by increasing or decreasing stock price (-20%–20%), commodity price (-20%–20%), interest rate (-2%p–2%p), value in Korean won (-10%–10%) and credit premium (added interest rate) (-5%p–5%p). The stock price, commodity price, interest rate, value in Korean won and credit premium are major unobservable inputs.

<sup>3</sup> Fair value changes in Callable IRS (Callable Interest Rate Swap) are calculated by increasing or decreasing KRW Swaption by 10%. The KRW Swaption is major unobservable input.

<sup>4</sup> Gains and losses from fair value changes of financial liabilities designated as at FVTPL are calculated by increasing or decreasing volatility (-10% - +10%) and correlation coefficient (-10% - +10%), which are significant but unobservable input variables.

<sup>5</sup> Beneficiary certificates and some contributions were excluded because it was practically impossible to calculate sensitivity due to changes in input variables.

#### 6.5 Transfer of Financial Assets

The Group holds securities sold under repurchase and securities-lending arrangements, and such transactions have resulted in transfer of financial assets. However, they have been recorded in the financial statements since the assets did not meet the removal criteria. In case of securities sold under repurchase agreements, the Group sells the assets to another party with a commitment to buy the assets back at a specified price. Loaned securities will be returned at the end of security-lending agreement. Hence, the Group retains substantially all the risks and rewards of ownership of the financial assets.

#### Hedging accounting

In order to hedge fluctuation risks of fair value due to changes in interest rate of structured deposits and issued financial bonds, a hedge accounting of fair value risk is applied that interest rate swaps are designated as a hedging instrument. In order to hedge currency fluctuation risks of net investments in foreign operations, a hedge accounting of net investments in foreign operations is applied that non-derivative financial instruments are designated as a hedging instrument.

The valuation of derivatives designated as a hedging instrument as of June 30, 2022 and December 31, 2021, is as follows:

(In millions of Korean won)		June 3	0, 2022

<sup>1</sup> All of the joint arrangements, which the Group holds joint control of that arrangements, were structured through other entities. However, there are no contractual terms and/or conditions stating that the parties have rights to the assets and obligations for the liabilities relating to the arrangements. Since the parties having joint control of the arrangements believe that they have rights to the net assets of the joint arrangements, such parties are classified as joint ventures. Additionally, the net assets of the joint venture are incorporated in the Group's financial statements using the equity method of accounting.

Retained earnings before appropriation		2,094,209		2,078,619	
	₩	6,518,534	₩	6,210,820	

<sup>1</sup> Article 53 of the Financial Holding Company Act requires the Parent Company to appropriate at least 10% of profit for the period to legal reserve until such reserve equals 100% of its paid-up capital. This reserve is not available for payment of cash dividends; however, it can be used to reduce deficit or be transferred to capital.

#### Regulatory reserve for credit loss

In accordance with the Regulations for Supervision of the Financial Holding Company, if provisions for impairment under K-IFRSs for the accounting purpose do not exceed those for the regulatory purpose, the Group discloses such shortfall amount as regulatory reserve for credit loss. Due to the fact that regulatory reserve for credit loss is a discretionary reserve, amounts exceeding the existing reserve for credit loss are over the compulsory reserve for credit loss at the period-end date and are able to be reversed in profit. In case of accumulated deficit, the Group should set aside reserve for credit loss at the time when accumulated deficit is gone.

Regulatory reserve for credit loss as of June 30, 2022, and December 31, 2021, is as follows:

(In millions of Korean won)	June	30, 2022	December 31, 2021		
Provided reserve for credit loss <sup>1</sup> Estimated addition (reversal) of reserve for credit	₩	568,892	₩	467,892

Regulatory reserve for credit loss	$\forall \forall$	504,338	₩	568,892	
Owners of the Parent Company Non-controlling interests	₩	504,338 -	₩	568,892	

<sup>1</sup> Provided reserve for credit loss as of June 30, 2022, and December 31, 2021, is the amount after appropriations of retained earnings.

Expected provision of reserve for credit losses, adjusted profit after the provision of regulatory reserve and adjusted earnings per share after the provision of regulatory reserve for the three-month and six-month periods ended June 30, 2022 and 2021, are as follows:

(In millions of Korean won)	2022					2021

Adjusted profit after the provision of regulatory reserve <sup>1</sup>	₩	274,124	₩	569,646	₩	269,650	₩	431,403		
Adjusted earnings per share after the provision of regulatory reserve <sup>1</sup> ( <i>in Korean won</i> )	₩	821	₩	1,707	₩	807	₩	1,281		

<sup>1</sup> Profit and earnings per share after the expected provision of reserve for credit losses are not in accordance with K-IFRSs, but are calculated on the assumption that provision or reversal of reserve for credit loss is adjusted to the profit for the period of owners of the Parent Company. Earnings per share after the expected provision of reserve for credit losses are presented net of dividends on hybrid equity securities.

#### (a) Share-based payments

The Group has granted share-based payments to its executives and employees and measured the cost of the share options by a fair value approach. The share-based payments is an incentive plan that sets, on grant date, the maximum number of shares that can be awarded. Actual shares to be granted is determined and paid in cash in accordance with achievement of performance targets over the vesting period.

The performance compensation linked to short-term performance and long-term performance for the chairman, the bank president and the other executives shall be paid in cash in the following year of evaluation period, and the remaining compensations shall be deferred in connection with the share price.

Provisions related to these lawsuits			₩	471			₩	471

The Group filed a lawsuit against Korea Deposit Insurance Corporation to seek compensation for loss (litigation value: ₩52.6 billion) as of the end of the reporting period. On December 15, 2017, the court ordered Korea Deposit Insurance Corporation to pay ₩52.6 billion to the Group in the first trial. In respect of the first court decision, Korea Deposit Insurance Corporation paid ₩52.6 billion in advance and the Group recognized the corresponding amount as other liabilities. As per the second trial held on January 24, 2019, the Group returned certain amount to Korea Deposit Insurance Corporation, which is the case after the reporting period that requires amendment, and the amount of the liability has been revised, including the interest paid after the end of the reporting period. In addition, although the Group returned the loss and filed an appeal for the final judgement in the Supreme Court on February 13, 2019, and the ultimate outcome of the appeal cannot be reasonably estimated, the management judges that the outcome of the suit does not exceed the amount of the liability recognized at the end of the reporting period.
