INDEPENDENT AUDITORS' REPORT

English Translation of Independent Auditors' Report Originally Issued in Korean on March 8, 2023

To the Shareholders and the Board of Directors of BNK Financial Group Inc.:

Audit Opinion

We have audited the separate financial statements of BNK Financial Group Inc. (the "Company"), which comprise the separate statements of financial position as of December 31, 2022 and December 31, 2021, respectively, and the separate statements of comprehensive income, separate statements of changes in equity and separate statements of cash flows for the years then ended, and notes to the separate financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying separate financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2022 and December 31, 2021, respectively, and its financial performance and its cash flows for the years ended in accordance with Korean International Financial Reporting Standards ("K-IFRS").

We have also audited, in accordance with the Korean Standards on Auditing ("KSAs"), the internal control over financial reporting of the Company as of December 31, 2022, based on 'Conceptual Framework for Designing and Operating Internal Control over Financial Reporting', and our report dated March 8, 2023, expressed an unqualified opinion.

Basis for Audit Opinion

We conducted our audits in accordance with the KSAs. Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Separate Financial Statements* section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the separate financial statements in the Republic of Korea, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Key Audit Matters

We determined that there is no key audit matter to be reported in our audit of the separate financial statements of the current period.

Deloitte refers to one or more of Deloitte Touche Tohmatsu Limited ("DTTL"), its global network of member firms, and their related entities (collectively, the "Deloitte organization"). DTTL (also referred to as "Deloitte Global") and each of its member firms and related entities are legally separate and independent entities, which cannot obligate or bind each other in respect of third parties. DTTL and each DTTL member firm and related entity is liable only for its own acts and omissions, and not those of each other. DTTL does not provide services to clients. Please see http://www.deloitte.com/about to learn more.

Deloitte.

Responsibilities of Management and Those Charged with Governance for the Separate Financial Statements

Management is responsible for the preparation of the accompanying separate financial statements in accordance with K-IFRS, and for such internal control as they determine is necessary to enable the preparation of separate financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the separate financial statements, management of the Company is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Separate Financial Statements

Our objectives are to obtain reasonable assurance about whether the separate financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the KSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these separate financial statements.

As part of an audit in accordance with the KSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the separate financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks and obtain audit evidence that is sufficient and appropriate to provide a basis for our audit opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

Deloitte.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the separate financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the separate financial statements, including the disclosures, and whether the separate financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits and significant audit findings, including any significant deficiencies in internal control that we identify during our audits.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the separate financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report, unless law or regulation precludes public disclosure about the matters or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audits resulting in this independent auditors' report is Jae-Chul Park.

March 8, 2023

Notice to Readers

This report is effective as of March 8, 2023, the auditors' report date. Certain subsequent events or circumstances, which may have occurred between the auditors' report date and the time the auditors' report is read. Such events or circumstances could significantly affect the separate financial statements and may result in modifications to the auditors' report.

SEPARATE FINANCIAL STATEMENTS AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2022 AND 2021

The accompanying separate financial statements, including all footnote disclosures, were prepared by, and are the responsibility of, the management of BNK Financial Group Inc.

Notes to Separate Financial Statements As of and for the Years Ended December 31, 2022 and 2021

1. **GENERAL INFORMATION:**

BNK Financial Group Inc. (the "Company") was established on March 15, 2011, pursuant to "comprehensive shares transfer" under the Financial Holding Companies Act, whereby holders of ordinary shares of Busan Bank Co., Ltd., BNK Securities Co., Ltd., BNK Capital Co., Ltd. and BNK Credit Information Co., Ltd. transferred shares to the Company and in return received shares of the Company's ordinary shares in order to control, manage and provide financial support to subsidiaries or financial industry-related subsidiaries.

Meanwhile, the Company established BNK System Co., Ltd. and BNK Savings Bank Co., Ltd. as its subsidiaries with 100% share in 2011 and obtained 56.97% share in Kyongnam Bank Co., Ltd. in October 2014, after which the Company proceeded to take over the rest of Kyongnam Bank Co., Ltd.'s shares through general exchange of shares on June 4, 2015. In July 2015, the Company obtained 51.01% shares of BNK Asset Management Co., Ltd. through acquisition and issue of shares and incorporated it as its subsidiary. In December 2017, the Company took over the rest of BNK Asset Management Co., Ltd.'s shares, and accordingly, it became a wholly owned subsidiary of the Company. In November 2019, the Company also obtained 100% shares of BNK Venture Capital Co., Ltd. and established it as a wholly owned subsidiary.

The Company's headquarters is located at Busan Nam-gu Munhyeongeumyung-ro, 30.

Meanwhile, the Company's share capital as of December 31, 2022, amounts to $\mbox{$\fill\engtharpi}1,629,676$ million with 325,935,246 outstanding shares.

2. SIGNIFICANT ACCOUNTING POLICIES:

The principal accounting policies applied in the preparation of these separate financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

2.1 Basis of Preparation

The Company maintains its accounting records in Korean won and prepares statutory separate financial statements in the Korean language (Hangul) in accordance with Korean International Financial Reporting Standards ("K-IFRSs"). The accompanying separate financial statements have been condensed, restructured and translated into English from the Korean language financial statements.

Certain information attached to the Korean language financial statements, but not required for a fair presentation of the Company's financial position, financial performance or cash flows is not presented in the accompanying separate financial statements.

Notes to Separate Financial Statements

As of and for the Years Ended December 31, 2022 and 2021

The Company prepares its separate financial statements in accordance with K-IFRS 1027 Separate Financial Statements. The separate financial statements require a parent or an investor with joint control of, or significant influence over, an investee to account for their investment assets in accordance with the cost method or the method prescribed in K-IFRS 1109 Financial Instruments using the equity method of accounting as prescribed in K-IFRS 1028 Investments in Associates and Joint Ventures. The preparation of the separate financial statements requires the use of critical accounting estimates. Management also needs to exercise judgement in applying the Company's accounting policies. The areas involving a higher degree of judgment or complexity or the areas where assumptions and estimates are significant to the separate financial statements are disclosed in Note 3.

The preparation of the separate financial statements requires the use of critical accounting estimates. Management also needs to exercise judgement in applying the Company's accounting policies. The areas involving a higher degree of judgment or complexity or the areas where assumptions and estimates are significant to the separate financial statements are disclosed in Note 3.

As explained in accounting policies below, the accompanying separate financial statements have been prepared on a historical cost basis, except for certain non-current assets and financial instruments that are measured at revalued amounts or fair value, as explained in the accounting policies below. Historical cost is generally based on the fair value of the considerations given in exchange for assets.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these separate financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of K-IFRS 1102 *Share-Based Payment*; leasing transactions that are within the scope of K-IFRS 1116 *Leases*; and measurements that have some similarities to fair value, but are not fair value, such as net realizable value in K-IFRS 1002 *Inventories* or value in use in K-IFRS 1036 *Impairment of Assets*.

The managements have, at the time of approving the separate financial statements, a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future. Accordingly, they continue to adopt the going-concern basis of accounting in preparing the separate financial statements.

Notes to Separate Financial Statements

As of and for the Years Ended December 31, 2022 and 2021

2.2 Changes in Accounting Policies and Disclosures

(a) New and amended standards and interpretations adopted by the Company and the changes in the accounting policies are as follows:

- K-IFRS 1103 Business Combination - Reference to the Conceptual Framework (Amendment)

The amendments update K-IFRS 1103 so that it refers to the Conceptual Framework (2018) instead of the Framework (2007). They also add to K-IFRS 1103 a requirement that, for obligations within the scope of K-IFRS 1037, an acquirer applies K-IFRS 1037 to determine whether, at the acquisition date, a present obligation exists as a result of past events. For a levy that would be within the scope of K-IFRS 2121 *Levies*, the acquirer applies K-IFRS 2121 to determine whether the obligating event that gives rise to a liability to pay the levy has occurred by the acquisition date.

Finally, the amendments add an explicit statement that an acquirer does not recognize contingent assets acquired in a business combination. The amendments had no significant impact on the separate financial statements.

- K-IFRS 1016 Property, Plant and Equipment (Amendment)

The amendment prohibits deducting from the cost of an item of property, plant and equipment any proceeds from selling items produced before that asset is available for use, i.e., proceeds while bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Consequently, an entity recognizes such sales proceeds and related costs in profit or loss. The entity measures the cost of those items in accordance with K-IFRS 1002 *Inventories*.

If not presented separately in the separate statements of comprehensive income, the separate financial statements shall disclose the amounts of proceeds and cost included in profit or loss that relate to items produced that are not an output of the entity's ordinary activities and which line item(s) in the separate statements of comprehensive income include(s) such proceeds and cost.

The amendment is applied retrospectively, but only to items of property, plant and equipment that are brought to the location and condition necessary for them to be capable of operating in the manner intended by management on or after the beginning of the earliest period presented in the separate financial statements in which the entity first applies the amendment. The entity shall recognize the cumulative effect of initially applying the amendment as an adjustment to the opening balance of retained earnings (or other component of equity, as appropriate) at the beginning of that earliest period presented. The amendments had no significant impact on the separate financial statements.

Notes to Separate Financial Statements

As of and for the Years Ended December 31, 2022 and 2021

- K-IFRS 1037 Provisions, Contingent Liabilities and Contingent Assets - Onerous Contracts - Cost of Fulfilling a Contract (Amendment)

The amendment specifies that the 'Cost of Fulfilling a Contract' comprises the 'Costs that Relate Directly to the Contract.' Costs that relate directly to a contract consist of both the incremental costs of fulfilling that contract (examples would be direct labor or materials) and an allocation of other costs that relate directly to fulfilling contracts (an example would be the allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract).

The amendment applies to contracts for which the entity has not yet fulfilled all of its obligations at the beginning of the annual reporting period in which the entity first applies the amendment. Comparatives are not restated. Instead, the entity shall recognize the cumulative effect of initially applying the amendment as an adjustment to the opening balance of retained earnings or other components of equity, as appropriate, at the date of initial application.

The amendments had no significant impact on the separate financial statements.

- Annual Improvements to K-IFRSs 2018-2020

The annual improvements include amendments to two standards, such as K-IFRS 1109 *Financial Instruments* and K-IFRS 1116 *Leases*.

(i) K-IFRS 1109 Financial Instruments

The amendment clarifies that in applying the '10 percent' test to assess whether to derecognize a financial liability, an entity includes only fees paid or received between the entity (the borrower) and the lender, including fees paid or received by either the entity or the lender on the other's behalf. The amendment is applied prospectively to modifications and exchanges that occur on or after the date the entity first applies the amendment.

(ii) K-IFRS 1116 Leases

The amendment removes the illustration of the reimbursement of leasehold improvements.

The amendments had no significant impact on the separate financial statements.

- (b) The K-IFRSs that have been published that are not mandatory for December 31, 2022, reporting periods and have not been early adopted by the Company.
- K-IFRS 1001 *Presentation of Financial Statements* and International Financial Reporting Standards ("IFRS") Practice Statement 2 *Making Materiality Judgements Disclosure of Accounting Policies* (Amendment)

The amendments change the requirements in K-IFRS 1001 with regard to disclosure of accounting policies. The amendments replace all instances of the term 'significant accounting policies' with 'material accounting policy information.' Accounting policy information is material if, when considered together with other information included in an entity's financial statements, it can reasonably be expected to influence decisions that the primary users of general-purpose financial statements make on the basis of those financial statements.

Notes to Separate Financial Statements

As of and for the Years Ended December 31, 2022 and 2021

The supporting paragraphs in K-IFRS 1001 are also amended to clarify that accounting policy information that relates to immaterial transactions, other events or conditions is immaterial and need not be disclosed. Accounting policy information may be material because of the nature of the related transactions, other events or conditions, even if the amounts are immaterial. However, not all accounting policy information relating to material transactions, other events or conditions is itself material.

The board has also developed guidance and examples to explain and demonstrate the application of the 'four-step materiality process' described in IFRS Practice Statement 2.

These amendments to K-IFRS 1001 are effective for annual periods beginning on or after January 1, 2023, with earlier application permitted and are applied prospectively. The amendments to IFRS Practice Statement 2 do not contain an effective date or transition requirements.

- K-IFRS 1001 Presentation of Financial Statements – Disclosure of financial liabilities with condition to adjust exercise price (Amendment)

The amendments require disclosure of valuation gains or losses (limited to those recognized in the profit or loss) of the conversion options or warrants (or financial liabilities including them) if all or part of the financial instrument with an exercise price that is adjusted depending on the issuer's share price change is classified as a financial liability as defined in paragraph 11 (2) of K-IFRS 1032.

The amendments are applied retrospectively for annual periods beginning on or after January 1, 2023, with early application permitted.

- K-IFRS 1008 Accounting Policies, Changes in Accounting Estimates and Errors - Definition of Accounting Estimates (Amendment)

The amendments replace the definition of change in accounting estimates with the definition of accounting estimates. Under the new definition, the accounting estimates are "monetary amounts in financial statements that are subject to measurement uncertainty."

The definition of a change in accounting estimates was deleted. However, the International Accounting Standards Board ("IASB") retained the concept of change in accounting estimates in the standard with the following clarifications:

- A change in accounting estimate that results from new information or new developments is not the correction of an error.
- The effects of a change in an input or a measurement technique used to develop an
 accounting estimates are change in accounting estimates if they do not result from the
 correction of prior-period errors.

The amendments are effective for annual periods beginning on or after January 1, 2023, to changes in accounting policies and changes in accounting estimates that occur on or after the beginning of that period, with earlier application permitted.

Notes to Separate Financial Statements

As of and for the Years Ended December 31, 2022 and 2021

- K-IFRS 1012 Income Taxes - Deferred Tax Related to Assets and Liabilities arising from a Single Transaction (Amendment)

The amendments reduce the scope of application of the initial recognition exception. According to the amendments, the exception to initial recognition does not apply to transaction in which the equal taxable temporary difference and deductible temporary difference give rise.

Under applicable tax laws, a transaction that is not a business combination and that does not affect accounting profit or taxable profit may result in equal taxable temporary difference and deductible temporary difference when recognizing assets and liabilities. For instance, this situation may arise when a lease liability and a corresponding right-of-use asset are recognized by applying K-IFRS 1116 at the commencement date of the lease.

In accordance with K-IFRS 1012 amendment, the Company should recognize related deferred tax assets and deferred tax liabilities. Recognition of deferred tax assets is subject to the recoverability requirements of K-IFRS 1012.

The amendments apply to transactions that occur on or after the beginning of the earliest comparative period presented. In addition, at the beginning of the earliest comparative period an entity recognizes:

- A deferred tax asset (to the extent it is probable that taxable profit will be available against which the deductible temporary difference can be utilized) and a deferred tax liability for all deductible and taxable temporary differences are associated with:
 - Right-of-use assets and lease liabilities
 - Decommissioning, restoration and similar liabilities and the corresponding amounts recognized as part of the cost of the related asset
- The cumulative effect of initially applying the amendments as an adjustment to the opening balance of retained earnings (or other component of equity, as appropriate) at that date

The amendments are effective for annual reporting periods beginning on or after January 1, 2023, with earlier application permitted.

The Company does not expect that these amendments have a significant impact on the separate financial statements.

2.3 Subsidiaries

The financial statements of the Company are the separate financial statements prepared in accordance with K-IFRS 1027 Separate Financial Statements. Investments in subsidiaries are recognized at cost under the direct equity method. Management applied the carrying amounts under the previous accounting principles generally accepted in Korea at the time of transition to K-IFRS as deemed cost of investments. The Company recognizes dividend income from subsidiaries in profit or loss when its right to receive the dividend is established.

Notes to Separate Financial Statements

As of and for the Years Ended December 31, 2022 and 2021

2.4 Foreign Currency Translation

(a) Functional and presentation currency

Items included in the separate financial statements of the Company are measured using the currency of the primary economic environment in which the Company operates (the "functional currency"). The separate financial statements are presented in Korean won, which is the Company's functional and presentation currency.

(b) Transactions and balances

In preparing the financial statements of the individual entities, transactions in currencies other than the entity's functional currency (the "foreign currencies") are recognized at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences are recognized in profit or loss in the period in which they arise, except for:

- exchange differences on foreign currency borrowings related to assets under construction for future productive use, which are included in the cost of those assets when they are regarded as an adjustment to interest costs on those foreign currency borrowings;
- exchange differences on transactions entered into in order to hedge certain foreign currency risks; and
- exchange differences on monetary items receivable from or payable to a foreign operation for
 which settlement is neither planned nor likely to occur (therefore, forming part of the net
 investment in the foreign operation), which are recognized initially in other comprehensive
 income and reclassified from equity to profit or loss on disposal or partial disposal of the net
 investment.

For the purpose of presenting the separate financial statements, the assets and liabilities of the Company's foreign operations are expressed in Korean won using exchange rates prevailing at the end of the reporting period. Income and expense items are translated at the average exchange rates for the period, unless exchange rates fluctuated significantly during that period, in which case the exchange rates at the dates of the transactions are used. Exchange differences arising, if any, are recognized in other comprehensive income.

Notes to Separate Financial Statements

As of and for the Years Ended December 31, 2022 and 2021

2.5 Financial Assets

(a) Classification

The Company classifies its financial assets in the following measurement categories:

- Those to be measured at fair value through profit or loss
- Those to be measured at fair value through other comprehensive income
- Those to be measured at amortized cost

The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows.

For financial assets measured at fair value, gains and losses will be recorded either in profit or loss or in other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. The Company reclassifies debt investments when, and only when, its business model for managing those assets changes.

For investments in equity instruments that are not held for trading, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income. Changes in fair value of non-designated equity investment are recognized in profit or loss.

(b) Measurement

At initial recognition, the Company measures a financial asset, in the case of a financial asset not at fair value through profit or loss, at its fair value, plus transaction costs that are directly attributable to the acquisition of the financial asset or the issuance of the financial liabilities. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payments of principal and interest.

A. Debt instruments

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. The Company classifies its debt instruments into one of the following three measurement categories:

Amortized cost: Assets that are held for collection of contractual cash flows where those
cash flows represent solely payments of principal and interest are measured at amortized
cost. A gain or loss on a debt investment that is subsequently measured at amortized cost
and is not part of a hedging relationship is recognized in profit or loss when the asset is
derecognized or impaired.

Notes to Separate Financial Statements

As of and for the Years Ended December 31, 2022 and 2021

- Fair value through other comprehensive income: Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income. Movements in the carrying amount are taken through other comprehensive income, except for the recognition of impairment loss (reversal of impairment loss), interest income and foreign exchange gains and losses that are recognized in profit or loss. When the financial asset is derecognized, the cumulative gain or loss previously recognized in other comprehensive income is reclassified from equity to profit or loss.
- Fair value through profit or loss: Assets that do not meet the criteria for amortized cost or fair value through other comprehensive income are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognized in profit or loss.

B. Equity instruments

The Company subsequently measures all equity investments at fair value. Where the Company's management has elected to present fair value gains and losses on equity investments, which are held for long-term investment or strategic purpose, in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss following the derecognition of the investment. Dividend income from such investments continues to be recognized in profit or loss when the right to receive payments is established.

Changes in the fair value of financial assets at fair value through profit or loss are recognized in profit or loss in the separate statements of comprehensive income as applicable. Impairment loss (reversal of impairment loss) on equity investments measured at fair value through other comprehensive income is not reported separately from other changes in fair value.

(c) Impairment

The Company assesses, on a forward-looking basis, the expected credit losses associated with its debt instruments carried at amortized cost and fair value through other comprehensive income. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

The expected credit losses of debt securities at fair value through other comprehensive income and financial assets at amortized cost are measured as a probability-weighted estimate of the present value, that is, the difference between the contractual cash flows to be received over the expected life of the financial assets and cash flows expected to receive, discounted at the original effective interest rate.

At the end of each reporting period, the Company measures the loss allowance for a financial instrument at an amount equal to the lifetime expected credit losses if the credit risk on that financial instrument has increased significantly since initial recognition. If, at the end of each reporting period, the credit risk on a financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12-month expected credit losses.

Notes to Separate Financial Statements

As of and for the Years Ended December 31, 2022 and 2021

(d) Recognition and derecognition

Regular-way purchases and sales of financial assets are recognized or derecognized on trade date, the date on which the Company commits to purchase or sell the assets. Financial assets are derecognized when the rights to receive cash flows from the financial assets have expired or have been transferred and the Company has transferred substantially all the risks and rewards of ownership. If a transfer does not result in derecognition because the Company has retained substantially all the risks and rewards of ownership of the transferred asset, the Company continues to recognize the transferred asset in its entirety and recognize a financial liability for the consideration received.

2.6 Financial Liabilities and Equity Instruments

(a) Classification as debt or equity

Debt and equity instruments issued by the Company are classified either as financial liabilities or as equity in accordance with the substance of the contractual arrangement and the definitions of a financial liability and an equity instrument.

(b) Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognized at the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instruments is recognized and deducted directly in equity. No gain or loss is recognized in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

(c) Hybrid capital instruments

The Company classifies issued financial instrument, or its component parts, on initial recognition as a financial liability or an equity instrument in accordance with the substance of the contractual arrangement and the definitions of a financial liability and an equity instrument. Hybrid capital instruments where the Company has an unconditional right to avoid delivering cash or another financial asset to settle a contractual obligation are classified as equity instruments and presented in equity.

(d) Financial liabilities

The Company's financial liabilities at fair value through profit or loss are financial instruments held for trading. A financial liability is held for trading if it is incurred principally for the purpose of repurchasing in the near term. A derivative that is not designated as a hedging instrument and an embedded derivative that is separated are also classified as held for trading.

Notes to Separate Financial Statements

As of and for the Years Ended December 31, 2022 and 2021

The Company classifies non-derivative financial liabilities, except for financial liabilities at fair value through profit or loss, financial guarantee contracts and financial liabilities that arise when a transfer of financial assets does not qualify for derecognition, as financial liabilities carried at amortized cost and presented as 'deposit liabilities,' 'borrowings' and 'other financial liabilities' in the separate statements of financial position.

(e) Derecognition of financial liabilities

Financial liabilities are removed from the separate statements of financial position when they are extinguished; for example, when the obligation specified in the contract is discharged, canceled or expired or when the terms of an existing financial liability are substantially modified. The difference between the carrying amount of a financial liability extinguished or transferred to another party and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognized in profit or loss.

(f) Offsetting of financial instruments

Financial assets and liabilities are offset, and the net amount is reported in the separate statements of financial position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the assets and settle the liabilities simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and, in the event of default, insolvency or bankruptcy of the Company or the counterparty.

2.7 Non-current Assets Held for Sale

Non-current assets (or disposal groups) are classified as held for sale when their carrying amount will be recovered principally through a sale transaction, rather than through continuing use, and a sale is considered highly probable. The assets are measured at the lower amount between their carrying amount and the fair value, less costs to sell.

2.8 Property and Equipment

Property and equipment are stated at cost, less subsequent accumulated depreciation and accumulated impairment losses. The cost of items of property and equipment directly attributable to their purchase or construction includes any costs directly attributable to bringing an asset to the location and condition necessary for it to be capable of operating in the manner intended by management. It also includes the initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located.

Subsequent costs are recognized in the carrying amount of an asset or as an asset if it is probable that future economic benefits associated with the asset will flow into the Company and the cost of the asset can be measured reliably. Routine maintenance and repairs are expensed as incurred.

Notes to Separate Financial Statements

As of and for the Years Ended December 31, 2022 and 2021

The Company does not depreciate land. Depreciation expense is computed using the straight-line method based on the estimated useful lives of the assets as follows:

| | Useful life (years) | Depreciation method | |
|------------------------|---------------------|---------------------|----|
| Buildings | 50 | Straight line | lf |
| Leasehold improvements | 5 | Straight line | |
| Movable assets | 5 | Straight line | |

Each part of an item of property and equipment has a cost that is significant in relation to the total cost of the item, it is depreciated separately.

The Company reviews the depreciation method, the estimated useful lives and the residual values of property and equipment at the end of each annual reporting period. If expectations differ from previous estimates, the changes are accounted for as a change in an accounting estimate.

An item of property and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on derecognition of the asset is determined as the difference between the net disposal proceeds and the carrying amount of the asset and is recognized in profit or loss in the period in which the property is derecognized.

2.9 Intangible Assets

(a) Intangible assets acquired separately

Intangible assets with finite useful lives that are acquired separately are carried at cost, less accumulated amortization and accumulated impairment losses. Amortization is recognized on a straight-line basis over their estimated useful lives. The estimated useful life and amortization method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost, less accumulated impairment losses.

| | Amortization method | Useful life (years) | | |
|-------------------|---------------------|---------------------|--|--|
| Software | Straight line | 5 | | |
| Development costs | Straight line | 5 | | |

(b) Internally generated intangible assets — research and development expenditure

Expenditure on research activities is recognized as an expense in the period in which it is incurred.

Expenditure arising from development (or from the development phase of an internal project) is recognized as an intangible asset if, and only if, the development project is designed to produce new or substantially improved products and the Company can demonstrate the technical and economic feasibility and measure reliably the resources attributable to the intangible asset during its development.

Notes to Separate Financial Statements

As of and for the Years Ended December 31, 2022 and 2021

The amount initially recognized for internally generated intangible assets is the sum of the expenditure incurred from the date when the intangible asset first meets the recognition criteria. Where no internally generated intangible asset can be recognized, development expenditure is recognized in profit or loss in the period in which it is incurred.

Subsequent to initial recognition, internally generated intangible assets are reported at cost, less accumulated amortization and accumulated impairment losses, on the same basis as intangible assets that are acquired separately.

(c) Intangible assets acquired in a business combination

Intangible assets that are acquired in a business combination are recognized separately from goodwill and are initially recognized at their fair value at the acquisition date (which is regarded as their cost). Subsequent to initial recognition, intangible assets acquired in a business combination are reported at cost, less accumulated amortization and accumulated impairment losses, on the same basis as intangible assets that are acquired separately.

(d) Derecognition of intangible assets

An intangible asset is derecognized on disposal or when no future economic benefits are expected from its use. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognized in profit or loss when the asset is derecognized.

2.10 Impairment of Non-Financial Assets

At the end of each reporting period, the Company reviews the carrying amounts of its property and equipment and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating units ("CGUs") to which the asset belongs. Where a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual CGUs; otherwise, they are allocated to the smallest group of CGUs for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually and whenever there is an indication that an asset may be impaired.

Recoverable amount is the higher of fair value, less costs to sell, or value in use. If the recoverable amount of an asset (or a CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or the CGU) is reduced to its recoverable amount and the reduced amount is recognized in profit or loss.

Notes to Separate Financial Statements

As of and for the Years Ended December 31, 2022 and 2021

Where an impairment loss subsequently reverses, the carrying amount of the asset (or the CGU) is increased to the revised estimate of its recoverable amount so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset (or the CGU) in prior years. A reversal of an impairment loss is recognized immediately in profit or loss.

The Company estimates the recoverable amount of an individual asset. If it is impossible to measure the individual recoverable amount of an asset, then the Company estimates the recoverable amount of a CGU. A CGU is the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or groups of assets. The recoverable amount of an asset or a CGU is the greater one of its value in use or its fair value, less costs to sell. The value in use is estimated by applying a pretax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU for which estimated future cash flows have not been adjusted to the estimated future cash flows expected to be generated by the asset or CGU.

An impairment loss is recognized if the carrying amount of an asset or a CGU exceeds its recoverable amount. Impairment losses are recognized in profit or loss. Except for impairment losses in respect of goodwill, which are never reversed, an impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

2.11 Financial Guarantee Contracts

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due in accordance with the terms of a debt instrument.

Financial guarantee contracts are recognized as a financial liability at the time the guarantee is issued and recognized in the separate statements of financial position within other financial liabilities. The liability is initially measured at fair value and subsequently at the higher of:

- the amount determined in accordance with the expected credit loss model under K-IFRS 1109
 Financial Instruments or
- the amount initially recognized, less, where appropriate, the cumulative amount of income recognized in accordance with K-IFRS 1115 *Revenue from Contracts with Customers*.

2.12 Compound Instruments

The component parts of compound instruments (convertible notes) issued by the Company are classified separately as financial liabilities and equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument. Conversion option that will be settled by the exchange of a fixed amount of cash or another financial asset for a fixed number of the Company's own equity instruments is an equity instrument.

Notes to Separate Financial Statements

As of and for the Years Ended December 31, 2022 and 2021

At the date of issue, the fair value of the liability component is estimated using the prevailing market interest rate for a similar non-convertible instrument. This amount is recorded as a liability on an amortized cost basis using the effective interest method until extinguished upon conversion or at the instrument's maturity date.

The conversion option classified as equity is determined by deducting the amount of the liability component from the fair value of the compound instrument as a whole. This is recognized and included in equity, net of income tax effects, and is not subsequently remeasured. In addition, the conversion option classified as equity will remain in equity until the conversion option is exercised, in which case the balance recognized in equity will be transferred to share premium. No gain or loss is recognized in profit or loss upon conversion or expiration of the conversion option.

Transaction costs that relate to the issue of the convertible notes are allocated to liability and equity components in proportion to the allocation of the gross proceeds. Transaction costs relating to equity component are recognized directly in equity. Transaction costs relating to the liability component are included in the carrying amount of the liability component and are amortized over the lives of the convertible notes using the effective interest method.

2.13 Provisions

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (where the effect of the time value of money is material). The discount rate used is a pretax rate that reflects current market assessments of the time value of money and the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage is recognized in profit or loss as borrowing cost.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

At the end of each reporting period, the remaining provision balance is reviewed and assessed to determine if the current best estimate is being recognized. If the existence of an obligation to transfer economic benefit is no longer probable, the related provision is reversed during the period.

(a) Onerous contracts

Present obligations arising under onerous contracts are recognized and measured as provisions. An onerous contract is considered to exist where the Company has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received from the contract.

Notes to Separate Financial Statements

As of and for the Years Ended December 31, 2022 and 2021

(b) Restructurings

A restructuring provision is recognized when the Company has developed a detailed formal plan for the restructuring and has raised a valid expectation in those affected that it will carry out the restructuring by starting to implement the plan or announcing its main features to those affected by it. The measurement of a restructuring provision includes only the direct expenditures arising from the restructuring, which are those amounts that are both necessarily entailed by the restructuring and not associated with the ongoing activities of the entity.

(c) Contingent liabilities acquired in a business combination

Contingent liabilities acquired in a business combination are initially measured at fair value at the acquisition date. At the end of the subsequent reporting periods, such contingent liabilities are measured at the higher of the amount that would be recognized in accordance with K-IFRS 1037 *Provisions, Contingent Liabilities and Contingent Assets* or the amount initially recognized, less, where applicable, the cumulative amount of income recognized in accordance with K-IFRS 1115 *Revenue from Contracts with Customers*.

2.14 Income Tax Expense

In accordance with the Korean Corporate Tax Act, the Company and its 100%-owned domestic subsidiaries have filed a consolidated tax return. Accordingly, the Company recognizes total corporate income tax due as a current tax liability and the amounts due from subsidiaries as loans and receivables. The Company applies the consolidated taxation system in the way that the Company reports and pays income tax based on the total amount of income regarding the Company and all domestic subsidiaries on which the Company completely controls over as a single taxation unit. Deferred taxes are measured based on the future tax benefits expected to be realized in consideration of the expected combined profits or losses of eligible companies in accordance with the consolidated corporate tax system. The Company recognizes total amount of tax payables in accordance with the consolidated corporate tax system as a parent company and recognizes receivables that will be received from subsidiaries.

(a) Current tax

The tax currently payable is based on taxable profit for the period. Taxable profit differs from profit or loss before tax expenses as reported in the separate statements of comprehensive income because of items of income or expense that are taxable or deductible in other periods. The Company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Notes to Separate Financial Statements

As of and for the Years Ended December 31, 2022 and 2021

(b) Deferred tax

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the separate financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognized for all taxable temporary differences. Deferred income tax assets are generally recognized for all deductible temporary differences to the extent it is probable that taxable profits will be available against which those deductible temporary differences can be utilized. Such deferred income tax assets and liabilities are not recognized if the taxable or deductible temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit (taxable deficit) nor the accounting profit.

Deferred income tax liabilities are recognized for taxable temporary differences associated with investments in subsidiaries and associates and interests in joint ventures, except where the Company is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred income tax assets arising from deductible temporary differences associated with such investments and interests are only recognized to the extent it is probable that there will be sufficient taxable profits against which the benefits of the temporary differences can be utilized and they are expected to reverse in the foreseeable future.

The carrying amount of deferred income tax assets is reviewed at the end of each reporting period and reduced to the extent it is no longer probable that sufficient taxable profits will be available to allow all or part of the assets to be recovered.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realized based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

The Company shall offset deferred tax assets and deferred tax liabilities if, and only if, it has a legally enforceable right to set off current tax assets against current tax liabilities and the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities that intend either to settle current tax liabilities and assets on a net basis or to realize the assets and settle the liabilities simultaneously in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

If a deferred tax liability or asset arises from investment property that is measured using the fair value model in K-IFRS 1040 *Investment Property*, there is a rebuttable presumption that the carrying amount of the investment property will be recovered through sale. Accordingly, unless the presumption is rebutted, the measurement of the deferred tax liability or deferred tax asset shall reflect the tax consequences of recovering the carrying amount of the investment property entirely through sale. This presumption is rebutted if the investment property is depreciable and is held within a business model whose objective is to consume substantially all of the economic benefits embodied in the investment property over time, rather than through sale.

Notes to Separate Financial Statements

As of and for the Years Ended December 31, 2022 and 2021

(c) Current and deferred taxes for the year

Current and deferred taxes are recognized in profit or loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case the current and deferred taxes are also recognized in other comprehensive income or directly in equity. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

2.15 Employee Benefits

(a) Postemployment benefit

For defined benefit plans, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each reporting period. Remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding interest), is reflected immediately in the separate statements of financial position with a charge or credit recognized in other comprehensive income in the period in which it occurs. Remeasurement recognized in other comprehensive income is reflected immediately in retained earnings and will not be reclassified to profit or loss. Past service cost is recognized in profit or loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset. Defined benefit costs are composed of service cost (including current service cost and past service cost, as well as gains and losses on curtailments and settlements), net interest expense (income) and remeasurement.

The Company presents the service cost and net interest expense (income) components in profit or loss and the remeasurement component in other comprehensive income. Curtailment gains and losses are accounted for as past service costs.

The defined benefit liabilities recognized in the separate statements of financial position represent the actual deficit or surplus in the Company's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

(b) Termination benefits

A liability for a termination benefit is recognized at the earlier of when an entity can no longer withdraw the offer of the termination benefit and when the entity recognizes any related restructuring costs.

Discretionary contributions made by employees or third parties reduce service cost upon payment of these contributions to the plan. When the formal terms of the plans specify that there will be contributions from employees or third parties, the accounting depends on whether the contributions are linked to service as follows:

Notes to Separate Financial Statements

As of and for the Years Ended December 31, 2022 and 2021

- If the contributions are not linked to services (e.g., contributions are required to reduce a deficit arising from losses on plan assets or from actuarial losses), they are reflected in the remeasurement of the net defined benefit liability (asset).
- If contributions are linked to services, they reduce service costs. For the amount of contribution
 that is dependent on the number of years of service, the entity reduces service cost by
 attributing the contributions to periods of service using the attribution method required by KIFRS 1019 paragraph 70 for the gross benefits.

(c) Share-based payments

Under cash-settled share-based payment plan, the Company compensates the difference of the fair value and the exercise price of an option as the consideration for employee services received. Total expense that will be recognized over the vesting period is determined by reference to the fair value of the option granted. Until the liability is settled, the Company is required to remeasure the fair value of the liability at the end of each reporting period and at the date of settlement, with any changes in value recognized in profit or loss for the year.

2.16 Revenue and Expense Recognition

(a) Interest income and expense

Using the effective interest rate method, the Company recognizes interest income and expense on financial instruments at amortized cost and at fair value through other comprehensive income in the separate statements of comprehensive income. The amortized cost of financial assets or liabilities is calculated based on the effective interest rate method, and the interest income and expenses are allocated over the relevant period.

The effective interest rate reconciles the expected future cash in and out through the expected life of financial instruments or, if appropriate, through shorter period and net carrying amount of financial assets or liabilities. When calculating the effective interest rate, the Company estimates future cash flows considering all contractual terms of the financial instruments, except for the loss on future credit risk. Also, the effective interest rate calculation includes redemption costs, points (if it is a part of the effective interest rate) that are paid or earned between contracting parties, transaction costs and other premiums and discounts.

Once a financial asset or a group of similar financial assets has been written down as a result of an impairment loss, interest income is thereafter recognized using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss.

In addition, interest income arising from debt instruments at fair value through profit or loss is classified as interest income in the separate statements of comprehensive income.

Notes to Separate Financial Statements

As of and for the Years Ended December 31, 2022 and 2021

(b) Commission income

Financial service fees are recognized in accordance with the accounting standard of the financial instrument related to the fees earned as follows:

Fees that are a part of the financial instruments' effective yield

Fees that are a part of the effective interest rate of a financial instrument are treated as an adjustment to the effective interest rate. Such fees include compensation for activities, such as evaluating the borrower's financial condition; evaluating and recording guarantees, collateral and other security arrangements; negotiating the terms of the instrument; preparing and processing documents; and closing the transaction, as well as origination fees received on issuing financial liabilities measured at amortized cost. These fees are deferred and recognized as an adjustment to the effective interest rate. However, in case the financial instrument is classified as a financial asset at fair value though profit or loss, the relevant fee is recognized as revenue when the instrument is initially recognized.

② Commission from rendering services

Commission income from rendering services, such as asset management, trustee business and financial guarantee, is recognized as the services are provided. When it is not probable that specific loan agreement is contracted and agreed commission is not applied to K-IFRS 1109, those services will be recognized on a straight-line basis as the work is performed.

3 Commission from significant act performed

The recognition of revenue is postponed until the significant act is executed. On performing significant transactions, the earned commissions are recognized as gains and losses at the time the transactions are completed.

(c) Dividend income

Dividend income is recognized when the shareholders are entitled to receive dividends.

2.17 Leases

The Company assesses whether a contract is, or contains, a lease at inception of the contract. The Company recognizes a right-of-use asset and a corresponding lease liability with respect to all lease arrangements in which it is the lessee, except for leases of low-value assets (such as tablets and personal computers, small items of office furniture and telephones). For these leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease, unless another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the rate implicit in the lease. If this rate cannot be readily determined, the Company uses its incremental borrowing rate.

Notes to Separate Financial Statements

As of and for the Years Ended December 31, 2022 and 2021

Lease payments included in the measurement of the lease liability comprise:

- fixed lease payments (including in-substance fixed payments), less any lease incentives receivable;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate at the commencement date;
- the amount expected to be payable by the lessee under residual value guarantees;
- the exercise price of purchase options if the lessee is reasonably certain to exercise the options; and
- payments of penalties for terminating the lease if the lease term reflects the exercise of an option to terminate the lease.

The lease liability is presented as other financial liabilities in the separate statements of financial position.

The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using the effective interest method) and by reducing the carrying amount to reflect the lease payments made.

The Company remeasures the lease liability and makes a corresponding adjustment to the related right-of-use asset whenever:

- the lease term has changed or there is a significant event or change in circumstances
 resulting in a change in the assessment of exercise of a purchase option, in which case the
 lease liability is remeasured by discounting the revised lease payments using a revised
 discount rate;
- the lease payments change due to changes in an index or a rate, or a change in expected
 payment under a guaranteed residual value, in which cases the lease liability is remeasured
 by discounting the revised lease payments using an unchanged discount rate, unless the
 lease payments change is due to a change in a floating interest rate, in which case a revised
 discount rate is used: or
- a lease contract is modified and the lease modification is not accounted for as a separate
 lease, in which case the lease liability is remeasured based on the lease term of the modified
 lease by discounting the revised lease payments using a revised discount rate at the
 effective date of the modification.

The right-of-use assets comprise the initial measurement of the corresponding lease liability; lease payments made at or before the commencement day, less any lease incentives received; and any initial direct costs. They are subsequently measured at cost, less accumulated depreciation and impairment losses.

Whenever the Company incurs an obligation for costs to dismantle and remove a leased asset, restore the site on which it is located or restore the underlying asset to the condition required by the terms and conditions of the lease, a provision is recognized and measured under K-IFRS 1037. To the extent that the costs relate to a right-of-use asset, the costs are included in the related right-of-use asset, unless those costs are incurred to produce inventories.

Notes to Separate Financial Statements

As of and for the Years Ended December 31, 2022 and 2021

Right-of-use assets are depreciated over the shorter period of lease term and useful life of the right-of-use asset. If a lease transfers ownership of the underlying asset or the cost of the right-of-use asset reflects that the Company expects to exercise a purchase option, the related right-of-use asset is depreciated over the useful life of the underlying asset. The depreciation starts at the commencement date of the lease.

The right-of-use assets are presented as a separate line in the separate statements of financial position.

The Company applies K-IFRS 1036 to determine whether a right-of-use asset is impaired and accounts for any identified impairment loss as described in the 'Property and Equipment' policy (see Note 2.8).

The Company does not include variable lease payments (excluding those based on an index or a rate) in the measurement of right-of-use assets and lease liabilities, and those lease payments are recognized in profit or loss in the period in which the condition that triggers those payments occurs.

As a practical expedient, K-IFRS 1116 permits a lessee not to separate non-lease components, but to account for any lease and associated non-lease components as a single arrangement. The Company has not used this practical expedient. For contracts that contain a lease component and one or more additional lease or non-lease components, the Company allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

2.18 Approval of Issuance of the Separate Financial Statements

The separate financial statements for the 2022 reporting period of the Company were approved for issuance by the board of directors on February 2, 2023, and are planned for the approval at the shareholders' meeting on March 17, 2023.

Notes to Separate Financial Statements

As of and for the Years Ended December 31, 2022 and 2021

3. CRITICAL ACCOUNTING ESTIMATES AND ASSUMPTIONS:

The preparation of separate financial statements requires the Company to make estimates and assumptions concerning the future. Management also needs to exercise judgement in applying the Company's accounting policies. Estimates and assumptions are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. As the resulting accounting estimates will, by definition, seldom equal the related actual results, it can contain a significant risk of causing a material adjustment.

(b) Measurement of defined benefit obligations

Defined benefit obligations are calculated based on actuarial valuation method at the end of each reporting period. To apply actuarial valuation method, the Company requires to make estimates (actuarial assumptions) about demographic variables (such as employee turnover and mortality) and financial variables (such as future increases in salaries and medical costs). Due to the uncertainty of the assumptions used, the amount of defined benefit retirement plans could be materially different from actual incurred payment in future periods. Details of defined benefit obligations are explained in Note 14.

(c) Income taxes

The Company's taxable income is subject to income taxes based on tax laws and interpretations of tax authorities. There are many transactions and calculations for which the ultimate tax determination is uncertain.

If certain portion of the taxable income is not used for investments or increases in wages or dividends in accordance with the *Tax System for Recirculation of Corporate Income*, the Company is liable to pay additional income tax calculated based on the tax laws. Accordingly, the measurement of current and deferred income taxes is affected by the these tax effects. As the Company's income tax is dependent on the investments, the increase in wages and the dividends, there is an uncertainty measuring the final tax effects.

Notes to Separate Financial Statements

As of and for the Years Ended December 31, 2022 and 2021

4. FINANCIAL RISK MANAGEMENT:

This outline indicates the level of exposure to risks and objectives, policies, risk assessment and management procedures of the Company. Additional quantitative information is disclosed in the separate financial statements.

The Company operates the procedures for recognizing, measuring, evaluating, regulating, monitoring and reporting the risk so that the risk management system is focused on increasing the transparency of risk and supporting the long-term strategy and management decision-making to deal with rapid changes in the financial environment.

The risk management is the decision-making system to evade and reduce the risk and understand the source and scale of risk. This system aims to increase the asset's soundness and is operated by organization of risk management.

The organization of risk management is composed of risk management committee, risk management council and risk management division. The risk management committee establishes risk management strategy, determining the possible level of risk and the allocation of risk-weighted capital as a top decision-making organization. The Company's risk management division performs detailed policies, procedures and business processes of risk management.

4.1 Credit Risk

The credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises primarily from the Company's deposits, securities, loans, off-balance accounts and trust accounts.

The purpose of credit risk management is to avoid excessive risks that damage the Company's soundness by improving the assets' soundness through setup of credit ratings and credit screening and quantifying and regularly managing credit risks.

The Company does not calculate the credit risk-weighted assets in regulatory capital for managing the credit risk, but manages and sets up allowance for credit loss by checking the asset's soundness about loans and receivables accompanying the credit risk on a monthly basis.

The Company's maximum exposure to the credit risk as of December 31, 2022 and 2021, is as follows:

| (In thousands of Korean won) | 2022 | | 2021 |
|------------------------------|-------------|------|-------------|
| | ₩ 199,167,3 | 32 ₩ | 174,546,298 |
| Off-balance items: | | | |

4.2 Liquidity Risk

Liquidity risk is the risk of insolvency or loss due to a disparity between the inflow and outflow of funds resulting from, for example, maturity mismatches, obtaining funds at a high price or disposing securities at an unfavorable price due to lack of available funds.

The Company's liquidity management goal is to secure stable sources of revenue and to contribute optimal allocation of assets by managing appropriate levels of the disparity between the inflow and outflow of funds and preventing from the risk of insolvency due to liquidity crunch.

Notes to Separate Financial Statements

As of and for the Years Ended December 31, 2022 and 2021

All transactions that affect inflows and outflows of Korean/foreign currency funds across the Company are subject to liquidity risk management. The Company calculates the table of liquidity gap, which means a disparity between the maturity of assets and the maturity of liabilities, and sets up and manages the liquidity ratio, that is, Korean won-denominated liquid assets (including marketable securities) due within one month divided by Korean won-denominated liabilities due within one month.

Liabilities by term structures as of December 31, 2022 and 2021, are as follows:

| (In thousands of | | | | | 2022 | | |
|-------------------------|---|-------------------|-----|------------------|---------------|---------------------|-----------------|
| Korean won) | | ess than month | | month– months | 3–12 months | More than 1 year | Total |
| Debentures Non-trade | ₩ | 2,129,600 | ₩ | 5,352,350 | ₩ 420,337,200 | ₩1,005,973,067 | ₩ 1,433,792,217 |
| payables Accrued | | 343,585 | | - | | - 699 | 344,284 |
| expenses | | 294,211 | | 7,227,192 | 1,347,904 | 7,844,030 | 16,713,337 |
| (In thousands of | | | | | 2021 | | |
| Korean won) | | ess than month | | month– months | 3-12 months | More than 1 year | Total |
| Debentures Non-trade | ₩ | 2,816,350 | ₩ 1 | 06,451,650 | ₩ 244,480,050 | W1,110,020,500 | ₩ 1,463,768,550 |
| payables Accrued | | 363,205 | | - | | - 210 | 363,415 |
| expenses | | 588,133 | | 7,410,170 | 1,276,040 | 7,215,065 | 16,489,408 |

The cash flows disclosed in the maturity analysis are undiscounted contractual amounts, including principal and future interest payments, which result in disagreement with the discounted cash flows ("DCFs") included in the separate statements of financial position.

4.3 Capital Management

In accordance with the Regulation on Supervision of Financial Holding Companies, for capital risk management, the Company monitors its capital by measuring debt-to-equity ratio (total liabilities divided by total equity) and double leverage ratio (total capital investment in subsidiaries divided by total equity).

Notes to Separate Financial Statements

As of and for the Years Ended December 31, 2022 and 2021

5. FINANCIAL ASSETS AND FINANCIAL LIABILITIES:

There are no significant changes in the business and economic environments that affect the fair value of the Company's financial assets and liabilities for the year ended December 31, 2021.

5.1 Fair Value of Financial Instruments by Category

Carrying amount and fair value of financial instruments by category as of December 31, 2022 and 2021, are as follows:

| (In thousands of Korean won) | | 2022 | | | | 2021 | | | |
|--|-----|---------------|---|---------------|-----|---------------|---|---------------|--|
| | Car | rying amount | | Fair value | Car | rying amount | | Fair value | |
| Financial assets: | | | | | | | | | |
| Cash and due from banks | ₩ | 67,988,719 | ₩ | 67,988,719 | ₩ | 51,799,137 | ₩ | 51,799,137 | |
| Loans and receivables | | 199,167,332 | | 199,167,332 | | 174,546,298 | | 174,546,298 | |
| | ₩ | 267,156,051 | ₩ | 267,156,051 | ₩ | 226,345,435 | ₩ | 226,345,435 | |
| Financial liabilities: | | | | _ | | | | _ | |
| Debentures | ₩ | 1,368,661,051 | ₩ | 1,305,858,490 | ₩ | 1,398,528,377 | ₩ | 1,388,231,600 | |
| Other financial liabilities ¹ | | 17,057,621 | | 17,057,621 | | 16,852,823 | | 16,852,823 | |
| | ₩ | 1,385,718,672 | ₩ | 1,322,916,111 | ₩ | 1,415,381,200 | ₩ | 1,405,084,423 | |

¹ Other financial liabilities consist of accounts payable, accrued expenses and lease liabilities.

5.2 Fair Value Assessment Method and Assumptions

value.

Fair value assessment method and assumptions are as follows:

| Classification | Fair value measurement technique |
|-----------------------------|--|
| Cash and due from banks | The carrying amount of cash is regarded as the fair value. The carrying amount of demand deposit is regarded as the fair value as it does not have maturity and the amount approximates the fair value. The DCF model is used to determine the fair value of general deposits. For those general deposits with residual maturities of less than three months as at the closing date and the ones with a reset period of less than three months, the carrying amount is regarded as the fair value. |
| Loans and receivables | For loans and receivables with the residual maturities of less than three months as of the closing date and the ones with reset period of less than three months, the carrying amount is regarded as the fair value. Among receivables, deposits provided are mostly considered as intragroup transactions; so, any new or renewed lease transactions are subject to the approval of the board of directors in pursuant to the Article No. 398 of the Commercial Law and the policy of the board of directors. The carrying amounts of deposits provided are regarded as fair value since the contracts have been kept considering fluctuation rate of officially assessed individual land price comparisons with local lease cases and others for fair trade. |
| Debentures | Fair value is determined by using the valuation of independent third-party pricing services in accordance with the market prices that are quoted in active markets. |
| Other financial liabilities | Other financial liabilities mainly consist of financial liabilities with the residual maturities of less than three months as of the closing date, and the carrying amount of those is regarded as fair |

Notes to Separate Financial Statements

As of and for the Years Ended December 31, 2022 and 2021

5.3 Fair Value Hierarchy of Financial Instruments Subsequently Not Measured at Fair Value

The fair value hierarchy of financial assets and liabilities subsequently not measured at fair value as of December 31, 2022 and 2021, is as follows:

| (In thousands of | 2022 | | | | | | | |
|---|-------|---|----|---------------|----|-------------|----|---------------|
| Korean won) | Level | 1 | | Level 2 | | Level 3 | | Total |

| | | | | | | | | |

¹ The carrying amounts of loans and receivables and other financial liabilities at amortized cost, which are classified to Level 3, are disclosed in approximation of the fair value.

Notes to Separate Financial Statements

As of and for the Years Ended December 31, 2022 and 2021

Valuation techniques and inputs of financial assets and liabilities subsequently not measured at fair value whose fair values are disclosed and classified as Level 2 as of December 31, 2022 and 2021, are as follows; however, fair value hierarchy, valuation techniques and inputs of items whose carrying amount is a reasonable approximation of fair value are not disclosed:

| (In thousands of Korean won) | Fair v | /alue | Valuation | | | |
|------------------------------|-----------------|-----------------|-----------|---------------|--|--|
| | 2022 | 2021 | technique | Input | | |
| Financial liabilities: | | | | | | |
| Debentures | ₩ 1,305,858,490 | ₩ 1,388,231,600 | DCF model | Discount rate | | |

6. FINANCIAL INSTRUMENTS BY CATEGORY:

(a) The carrying amounts of financial instruments by category

All financial instruments (financial assets and financial liabilities) are measured at fair value or at amortized cost. The carrying amounts of financial assets and financial liabilities by each category as of December 31, 2022 and 2021, are as follows:

| (In thousands of Korean won) | | | 2022 | | | | 2021 | | | | |
|--|---|-----------------------------------|--------------------------------------|-------|-----|---------------|------|--|---|---|---------------|
| | | Financial assets at nortized cost | Financia liabilities amortized | at | | Total | | Financial assets at ortized cost | Financial liabilities at amortized cost | | Total |

Notes to Separate Financial Statements

As of and for the Years Ended December 31, 2022 and 2021

Details of fair values of plan assets as of December 31, 2022 and 2021, are as follows:

(In thousands of Korean won) 2022 2021

Time deposits \forall 12,615,926 \forall 12,142,970

The significant actuarial assumptions as of December 31, 2022 and 2021, are as follows:

| (In percentage) | 2022 | 2021 | | | |
|--|--|----------|--|--|--|
| Discount rate | 5.82 | 3.48 | | | |
| Weighted-average rate of salary increase | 1.83 | 1.18 | | | |
| Mortality ratio | Standardized mortality ratio by Korea Insurance Development Institute | | | | |
| Retirement ratio | Retirement ratio per a | ge group | | | |

Assuming that all other assumptions remain as they are at the end of the reporting period, the effect of any changes in significant actuarial assumptions, which were made within the reasonable limit on defined benefit obligations, is as follows:

| (In thousands of Korean won) | 1% | increase | 1% decrease | | |
|------------------------------|----|-------------|-------------|-------------|--|
| Change in discount rate | ₩ | (1,083,032) | ₩ | 1,230,200 | |
| Change in salary growth rate | | 1.267.084 | | (1.132.051) | |

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. The sensitivity of the defined benefit obligation to changes in principal actuarial assumptions is calculated using the projected unit credit method, the same method applied when calculating the defined benefit obligations recognized in the separate statements of financial position.

The Company reviews the funding level on an annual basis and has a policy of eliminating deficit from the fund.

The weighted-average duration of the defined benefit obligation as of December 31, 2022 and 2021, is 9.36 years and 10.66 years, respectively.

Notes to Separate Financial Statements

As of and for the Years Ended December 31, 2022 and 2021

The expected maturity analysis of undiscounted postemployment benefits as of December 31, 2022 and 2021, is as follows:

| | | | | | | 2022 | | | | | |
|------------------------------|---------------------|--------------------|--------------------|--------------------|-----------|-----------|----------------------|----------------------|---|------------|--|
| (In thousands of Korean won) | Less than 1 year | | 1 year- 2 years | | 2-5 years | | More than 5 years | | | Total | |

Notes to Separate Financial Statements As of and for the Years Ended December 31, 2022 and 2021

16. OTHER LIABILITIES:

Other liabilities as of December 31, 2022 and 2021, are as follows:

| (In thousands of Korean won) | 2022 | | | 2021 | | |
|------------------------------|------|------------|---|------------|--|--|
| Non-trade payables | ₩ | 344,284 | ₩ | 363,415 | | |
| Accrued expenses | | 16,713,337 | | 16,489,408 | | |
| Lease liabilities | | 2,239,894 | | 1,504,404 | | |
| Others ¹ | | 1,679,324 | | 1,550,467 | | |
| | ₩ | 20,976,839 | ₩ | 19,907,694 | | |

¹ Others consist of suspense payables in Korean won, value-added tax withheld and miscellaneous liabilities.

Undiscounted lease liabilities by term structures as of December 31, 2022 and 2021, are as follows:

| (In thousands of | 2022 | | | | | | | | |
|-------------------|------|------------------|---|------------------|---|----------------|--------------------|----------------------|-------------|
| Korean won) | | ss than month | _ | month- months | r | 3-12 nonths | 1 year- 5 years | More than 5 years | Total |
| Lease liabilities | ₩ | 74,702 | ₩ | 141,368 | ₩ | 488,533 | ₩ 1,181,339 | ₩ 485,851 | ₩ 2,371,793 |
| (In thousands of | | | | | | 20 | 21 | | |
| Korean won) | | ss than month | _ | month- months | r | 3-12 nonths | 1 year- 5 years | More than 5 years | Total |
| Lease liabilities | ₩ | 51,977 | ₩ | 94,581 | ₩ | 347,659 | ₩ 1,063,002 | ₩ - | ₩ 1,557,219 |

The total cash outflow for leases in 2022 was ₩886,651 thousand (2021: ₩ 686,847 thousand).

Expense relating to leases of low-value assets that are not short-term leases in 2022 is \forall 28,585 thousand (2021: \forall 33,707 thousand).

Notes to Separate Financial Statements

As of and for the Years Ended December 31, 2022 and 2021

17. TAX EXPENSE AND DEFERRED TAX:

Income tax expense for the years ended December 31, 2022 and 2021, consists of the following:

| (In thousands of Korean won) | 2022 | 2021 |
|--|------|-------|
| 0 | AA. | \A/ |
| Current tax: | ₩ | - ₩ - |
| Changes in deferred tax liabilities by temporary difference | | |
| Changes in deferred tax by taxable loss | | - |
| Tax effect | | - |
| Changes in deferred tax liabilities reflected directly in equity | | |
| Income tax expense | ₩ | _ ₩ _ |

Reconciliation between accounting profit and income tax expense for the years ended December 31, 2022 and 2021, is as follows:

| (In thousands of Korean won) | | 2022 | 2021 | | |
|--|---|--------------|------|--------------|--|
| Profit before income tax expense | ₩ | 305,256,302 | ₩ | 206,303,413 | |
| Taxes payable ¹ | | 73,583,483 | | 49,463,426 | |
| Tax effect of: | | | | | |
| Non-taxable income | | (84,778,340) | | (62,268,778) | |
| Non-deductible expenses | | 683,560 | | 811,269 | |
| Consolidated tax and others | | 10,511,297 | | 11,994,083 | |
| Income tax expense | ₩ | | ₩ | <u>-</u> | |
| Effective tax rate (income tax expense/profit before income tax expense) | | 0.00% | | 0.00% | |

¹ Taxes payable are calculated by applying the income tax rate (11% for less than ₩200 million, 22% for ₩200 million to ₩20 billion, 24.2% for ₩20 billion to ₩300 billion and 27.5% for more than ₩300 billion) to profit before income tax expense.

¹ Tax adjustments include adjustments that eventuated from additional adjustments made at the time of filing of taxation report.

Notes to Separate Financial Statements

As of and for the Years Ended December 31, 2022 and 2021

Deferred tax liabilities are recognized for taxable temporary differences. Deferred tax assets are recognized up to taxable temporary differences for tax loss carried forward and deductible temporary differences in consideration of their realizability. The amounts of deferred tax assets and deferred tax liabilities are identical as of December 31, 2022, and the deferred tax assets and liabilities are offset as the deferred tax balances relate to the same taxation authority; therefore, no deferred tax is presented in the separate financial statements.

The Company, as the parent company on behalf of its subsidiaries, recognizes total corporate income tax payables as a current tax liability amounting to $\forall 177,993,164$ thousand and $\forall 153,475,623$ thousand as of December 31, 2022 and 2021, respectively, in accordance with the consolidated corporate tax system.

18. SHARE CAPITAL AND OTHER PAID-IN CAPITAL:

(a) Share capital

As of December 31, 2022, the Company has 700 million ordinary shares authorized with a par value per share of \$7,000 and 325,935,246 shares have been issued. Share capital is \$1,629,676 million.

(b) Hybrid equity securities

Hybrid equity securities classified as equity as of December 31, 2022 and 2021, are as follows:

| (In thousands of Korean won) | Issue date | Maturity | Annual interest rate (%) | | 2022 | | 2021 |
|---------------------------------|------------|------------|--------------------------|---|-------------|---|-------------|
| Hybrid equity | 2015-06-24 | 2045-06-24 | 5.10 | ₩ | 30,000,000 | ₩ | 30,000,000 |
| securities | 2018-02-13 | - | 4.83 | | 100,000,000 | | 100,000,000 |
| | 2018-03-02 | - | 4.26 | | 150,000,000 | | 150,000,000 |
| | 2019-02-20 | - | 3.74 | | 100,000,000 | | 100,000,000 |
| | 2019-08-29 | - | 3.20 | | 100,000,000 | | 100,000,000 |
| | 2020-02-19 | - | 3.35 | | 150,000,000 | | 150,000,000 |
| | 2020-06-23 | - | 3.30 | | 100,000,000 | | 100,000,000 |
| | 2020-08-04 | - | 3.38 | | 100,000,000 | | 100,000,000 |
| Issuance cost | | | | | (2,607,523) | | (2,607,523) |
| | | | | ₩ | 827,392,477 | ₩ | 827,392,477 |

The Company can exercise its right to early repayment after 5 or 10 years after issuing hybrid equity securities, and at the date of maturity, the contractual agreements allow the Company to indefinitely extend the maturity date with the same contractual terms. In addition, the Company decides not to pay the dividends of ordinary shares at general shareholders' meeting and may not pay interest on the hybrid equity securities.

Notes to Separate Financial Statements

As of and for the Years Ended December 31, 2022 and 2021

(c) Other paid-in capital

Other paid-in capital is the amount of difference in the acquisition cost of subsidiaries and par value of the Company's transfer shares, net of treasury shares acquired to eliminate fractional shares arising from the share exchange and those acquired to stabilize share price and increase enterprise value.

| (In thousands of Korean won) | | 2022 | | 2021 |
|------------------------------|---|---------------|---|---------------|
| Share premium | ₩ | 2,277,035,810 | ₩ | 2,277,035,810 |
| Treasury shares | | (6,997,496) | | (6,997,496) |
| | ₩ | 2,270,038,314 | ₩ | 2,270,038,314 |

(d) Other components of equity

Other components of equity for the years ended December 31, 2022 and 2021, are as follows:

| (In thousands of Korean won) | 2022 | | | | |
|---|----------------------|---------------|------------------------|-------------------|--|
| | Beginning balance | Decrease | Effect of deferred tax | Ending balance | |
| Remeasurements of net defined benefit liabilities | ₩ (6,376,678) | ₩ 2,443,202 | ₩ - | ₩ (3,933,476) | |

Notes to Separate Financial Statements As of and for the Years Ended December 31, 2022 and 2021

19. <u>RETAINED EARNINGS:</u>

Retained earnings as of December 31, 2022 and 2021, consist of the following:

| (In thousands of Korean won) | | 2022 | | 2021 |
|--|---|-------------|---|-------------|
| Reserves: | | | | |
| Earned profit reserves | ₩ | 141,145,407 | ₩ | 120,514,407 |
| Reserve for credit losses | | 768,000 | | 431,000 |
| Reserve for claims liability | | 2,000,000 | | 2,000,000 |
| Discretionary reserves | | 205,388,183 | | 233,129,504 |
| | | 349,301,590 | | 356,074,911 |
| Retained earnings before appropriation | | 275,068,802 | | 174,908,413 |
| | ₩ | 624,370,392 | ₩ | 530,983,324 |

Article 53 of the Financial Holding Company Act requires a parent company to appropriate at least 10% of profit for the period to legal reserve until such reserve equals 100% of its paid-up capital. This reserve is not available for payment of cash dividends; however, it can be used to reduce deficit or be transferred to capital.

The appropriation of retained earnings for the years ended December 31, 2022 and 2021, is as follows:

| (In thousands of Korean won) | 2022 | 2021 |
|---|--------------|--------------|
| Unappropriated retained earnings: | | |
| Unappropriated retained earnings carried over from prior year | ₩ - | ₩ - |
| Dividends from hybrid equity securities | (30,187,500) | (31,395,000) |
| Profit for the year | 305,256,302 | 206,303,413 |
| | 275,068,802 | 174,908,413 |
| Transfers, such as discretionary reserves: | | |
| Discretionary reserves | - | 27,741,322 |
| | - | 27,741,322 |
| Appropriation of retained earnings: | | |
| Legal reserve | 30,526,000 | 20,631,000 |
| Reserve for credit losses | 843,000 | 337,000 |
| Discretionary reserves | 40,930,009 | - |
| Cash dividends (%): | | |
| ₩625 (12.5%) in 2022 | | |
| ₩569 (11.2%) in 2021 | 202,769,793 | 181,681,735 |
| | 275,068,802 | 202,649,735 |
| Unappropriated retained earnings to be carried forward | ₩ - | ₩ - |

The appropriation of retained earnings for the year ended December 31, 2022, is expected to be appropriated on March 17, 2023. The appropriation date for the year ended December 31, 2021, was March 25, 2022.

Notes to Separate Financial Statements

As of and for the Years Ended December 31, 2022 and 2021

Regulatory reserve for credit losses

In accordance with the Regulations for Supervision of Financial Holding Company, if provision for impairment under K-IFRSs is less than provisions that were calculated for the regulatory purpose, the Company is required to appropriate such shortfall amount as regulatory reserve for credit losses. The reserve for credit losses is included in retained earnings and is allowed to reduce the reserve amount required by the related financial regulation if the reserve for credit losses is over the required reserve. If there is an accumulated deficit, the reserve for credit losses is not appropriated until the undisposed accumulated deficit is disposed of.

Balances of regulatory reserve for credit losses as of December 31, 2022 and 2021, are as follows:

| (In thousands of Korean won) | | 2022 | | 2021 |
|---|---|-----------|---|---------|
| Provided regulatory reserve | ₩ | 768,000 | ₩ | 431,000 |
| Expected provision of reserve for credit losses | | 843,000 | | 337,000 |
| | ₩ | 1,611,000 | ₩ | 768,000 |

Expected provision of reserve for credit losses, adjusted profit after the expected provision of regulatory reserve and adjusted earnings per share after the expected provision of regulatory reserve for the years ended December 31, 2022 and 2021, are as follows:

| (In thousands of Korean won) | | 2022 | | 2021 |
|---|---|---|---|-------------|
| Profit for the year | ₩ | 305,256,302 | ₩ | 206,303,413 |
| Provision of reserve for credit losses | | (843,000) | | (337,000) |
| Adjusted profit after the reversal (provision) of regulatory reserve ¹ | ₩ | 304,413,302 | ₩ | 205,966,413 |
| Adjusted earnings per share after the provision of | | , ,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,, | | |
| regulatory reserve¹ (in Korean won) | ₩ | 845 | ₩ | 538 |

¹ Profit and earnings per share after the expected provision of reserve for credit losses are not in accordance with K-IFRSs, but are calculated on the assumption that provision or reversal of reserve for credit losses is adjusted to the profit for the year. Earnings per share after the expected provision of reserve for credit losses are presented net of dividends on hybrid equity securities.

Notes to Separate Financial Statements As of and for the Years Ended December 31, 2022 and 2021

20. <u>NET INTEREST EXPENSES:</u>

Net interest expenses and interest income and expenses for the years ended December 31, 2022 and 2021, are as follows:

| (In thousands of Korean won) | 2022 | | 2021 | |
|---------------------------------|------|--------------|------|--------------|
| | | | | |
| Interest income: | | | | |
| Cash and due from banks | ₩ | 352,520 | ₩ | 355,050 |
| Other interest income: | | | | |
| Present value discounts | | 349,019 | | 338,429 |
| | | 701,539 | | 693,479 |
| Interest expenses: | | _ | | _ |

| | ₩ | 43,855,071 | ₩ | 45,750,229 |

(a) Share-based payments

The Company has granted share-based payments to its executives and employees and measured the cost of the share options by a fair value approach. The share-based payments are an incentive plan that sets on grant date, the maximum number of shares that can be awarded. Actual shares to be granted are determined and paid in cash in accordance with achievement of performance targets over the vesting period.

The short-term performance compensation shall be paid in cash of 40% by the chairman and 60% by other executives and the business executive, and the remaining compensations shall be deferred in connection with the share price for three years. However, the compensation from 2020 shall be paid in cash at once in the following year according to the evaluation result.

The long-term performance compensation shall be paid in cash of 40%, and the remaining compensation shall be deferred in connection with the share price for three years according to the evaluation result per three years. However, all of the compensation from 2020 shall be deferred in connection with the share price for three or five years according to the evaluation result.

The terms and conditions of granted share options as of December 31, 2022, are as follows:

| | ₩ (| 652,987) | ₩ | (962,942) | |

Notes to Separate Financial Statements As of and for the Years Ended December 31, 2022 and 2021

24. EARNINGS PER SHARE:

Weighted-average number of ordinary shares for the years ended December 31, 2022 and 2021, are as follows:

| (In shares) | 2022 | 2021 |
|--|-------------|-------------|
| Beginning | 324,431,669 | 324,431,669 |
| Weighted-average number of ordinary shares outstanding | 324,431,669 | 324,431,669 |

Basic earnings per share for the years ended December 31, 2022 and 2021, are as follows:

| (In thousands of Korean won and in shares) | | 2022 | | 2021 |
|---|---|--------------|---|--------------|
| Profit attributable to ordinary shares | ₩ | 305,256,302 | ₩ | 206,303,413 |
| Dividends from hybrid equity securities | | (30,187,500) | | (31,395,000) |
| Profit for the year attributable to ordinary shares | | 275,068,802 | | 174,908,413 |
| Weighted-average number of ordinary shares | | | | |
| outstanding | | 324,431,669 | | 324,431,669 |
| Basic earnings per share | ₩ | 848 | ₩ | 539 |

Diluted earnings per share from continuing operations and diluted net earnings per share are computed by dividing the earnings from continuing operations and net earnings by the number of ordinary shares outstanding, plus dilutive securities outstanding during that period. Diluted earnings per share from continuing operations and diluted net earnings per share are not calculated because the Company had no dilutive potential ordinary shares during the year.

Notes to Separate Financial Statements As of and for the Years Ended December 31, 2022 and 2021

25. DIVIDENDS:

A dividend in respect of the year ended December 31, 2022, of \(\psi\)202,769,793 thousand for ordinary shares is to be proposed to shareholders at the annual general meeting on March 17, 2023. These separate financial statements do not reflect this dividend payable (2021: \(\psi\)181,681,735 thousand).

26. SEPARATE STATEMENTS OF CASH FLOWS:

Details of material transactions without cash inflows and outflows as of December 31, 2022 and 2021, are as follows:

(In thousands of Korean won) 2022 2021 Right-of-use assets, lease liabilities appropriation $\forall \forall 1,575,411 \ \forall 1,601,925$

27. COMMITMENTS:

Details of commitments with financial institutions as of December 31, 2022 and 2021, are as follows:

| (In thousands of | Korean won) | 20 |)22 | | 2021 | | | |
|------------------|--|---------------|---------|------|-------------|----|---|--|
| Commitment | ommitment Financial institution Limit Bala | | Balance | | Balance | | | |
| General loans | Korea Development Bank¹ | ₩ 150.000.000 | ₩ | - ₩ | 100.000.000 | ₩ | | |
| General loans | BNK Securities ² | 150,000,000 | ٧٧ | - ** | - | VV | _ | |

¹ The Company has entered into general loan agreement with Korea Development Bank for securing liquidity to cope with potential financial distress in domestic credit market and diversifying the financing channel, and entered into borrowing limit agreement as of August 2022.

28. CONTINGENCIES:

The Company filed a lawsuit against Korea Deposit Insurance Corporation to seek compensation for loss (litigation value: $\forall 52.6$ billion) as of December 31, 2022. On December 15, 2017, the court ordered Korea Deposit Insurance Corporation to pay the claim for compensation to the Company in the first trial. In respect of the first court decision, the Korea Deposit Insurance Corporation paid the claim amount in advance and the Company recognized the corresponding amount as other liabilities. In the second trial held on January 24, 2019, the Company has decided to return back certain amount to Korea Deposit Insurance Corporation, and the amount of the liability has been revised including the interest paid. In addition, although the Company returned the loss and filed an appeal for the final judgment in the Supreme Court on February 13, 2019, and the ultimate outcome of the appeal cannot be reasonably estimated. The management judges that the outcome of the suit does not exceed the amount of the liability recognized as of December 31, 2022.

² Regarding the purchase of corporate bonds of BNK Securities Co., Ltd. by the Korea Development Bank, the Company signed a agreement to provide BNK Securities Co., Ltd. with a credit line of ₩150 billion in December 2022.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

English Translation of Independent Auditors' Report on Internal Control over Financial Reporting Originally Issued in Korean on March 8, 2023

To the Shareholders and the Board of Directors of BNK Financial Group Inc.:

Audit Opinion on Internal Control over Financial Reporting

We have audited the internal control over financial reporting of BNK Financial Group Inc. (the "Company") as of December 31, 2022, based on 'Conceptual Framework for Designing and Operating Internal Control over Financial Reporting'.

In our opinion, the Company's internal control over financial reporting is designed and operated effectively as of December 31, 2022, in all material respects, in accordance with the 'Conceptual Framework for Designing and Operating Internal Control over Financial Reporting'.

We have also audited, in accordance with the Korean Standards on Auditing (the "KSAs"), the separate financial statements of the Company, which comprise the separate statement of financial position as of December 31, 2022, and the separate statement of comprehensive income, separate statement of changes in equity and separate statement of cash flow for the year then ended, and notes to the separate financial statements including a summary of significant accounting policies, and our report dated March 8, 2023, expressed an unqualified opinion.

Basis for Audit Opinion on Internal Control over Financial Reporting

We conducted our audits in accordance with the KSAs. Our responsibility under those standards are further described in the *Auditor's Responsibilities for the Audit of Internal Control over Financial Reporting* section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audits of the internal control over financial reporting in the Republic of Korea, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management and Those Charged with Governance for Internal Control over Financial Reporting

Management is responsible for designing, operating and maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying *Report on the Effectiveness of the Internal Control over Financial Reporting*.

Those charged with governance is responsible for the oversight of internal control over financial reporting of the Company.

Auditor's Responsibilities for the Audit of Internal Control over Financial Reporting

Our responsibility is to express opinion on the Company's internal control over financial reporting based on our audit. We conducted our audit in accordance with KSAs. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects.

An audit of internal control over financial reporting involves performing procedures to obtain audit evidence about whether a material weakness exists. The procedures selected depend on the auditors' judgment, including the assessment of the risks that a material weakness exists. The audit includes obtaining an understanding of internal control over financial reporting and testing and evaluating the design and operating effectiveness of internal control over financial reporting based on the assessed risk.

Definition and Inherent Limitations of Internal Control over Financial Reporting

A Company's internal control over financial reporting is a process effected by those charged with governance, management, and other personnel, designed to provide reasonable assurance regarding reliability of financial reporting and the preparation of financial statements for external purposes in accordance with Korean International Financial Reporting Standards ("K-IFRS"). A Company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with K-IFRS, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention, or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent, or detect and correct, misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

The engagement partner on the audit resulting in this independent auditors' report is Jae Chul Park.

Notice to Readers

This report is effective as of March 8, 2023, the auditors' report date. Certain subsequent events or circumstances may have occurred between the auditors' report date and the time the auditors' report is read. Such events or circumstances could significantly affect the Company's internal control over financial reporting and may result in modifications to the auditors' report.

Report on the Effectiveness of Internal Control over Financial Reporting

(English Translation of a Report Originally Issued in Korean)

To the Shareholders, Board of Directors and Audit Committee of BNK FINANCIAL GROUP Inc.

We, as the Chief Executive Officer (CEO) and the Internal Control over Financial Reporting Officer of BNK FINANCIAL GROUP Inc. (the Company), assessed the effectiveness of the design and operation of the Company's Internal Control over Financial Reporting (ICFR) for the year ended December 31, 2022.

The Company's management, including ourselves, is responsible for designing and operating ICFR. We assessed the design and operating effectiveness of the ICFR in the prevention and detection of an error or fraud which may cause material misstatements in the preparation and disclosure of reliable financial statements. We designed and operated ICFR in accordance with *Conceptual Framework for Designing and Operating Internal Control over Financial Reporting* established by the Operating Committee of Internal Control over Financial Reporting in Korea (the ICFR Committee). And, we conducted an evaluation of ICFR based on *Best Practice Guideline for Evaluating and Reporting Effectiveness of Internal Control over Financial Reporting* established by the ICFR Committee.

Based on the assessment results, we believe that the Company's ICFR, as at December 31, 2022, is designed and operating effectively, in all material respects, in accordance with *Conceptual Framework for Designing and Operating Internal Control over Financial Reporting*.

We certify that this report does not contain any untrue statement of a fact, or omit to state a fact necessary to be presented herein. We also certify that this report does not contain or present any statement which cause material misunderstandings, and we have reviewed and verified this report with sufficient due care.

February 23, 2023

Seong Jae Jeong, Temporary Chief Executive Officer

Jung Hoon Kim, Internal Control over Financial Reporting Officer
